

## EXPLORING EVERYDAY LIFE PAST AND PRESENT

Combining three rich databases to provide a comprehensive, cross-disciplinary resource that supports history, social studies, English, and language students, *Daily Life Online* moves seamlessly from past to present, providing context for contemporary life and culture. There's more to history and contemporary events than just the names of rulers and the rise of economic systems; *Daily Life Online* shows how fascinating and fun it is to explore how others lived and live their lives, and how their lives shaped ours.

A dynamic and expanding database, *Daily Life Online's* content is enhanced with new books, articles, images, maps, primary documents, and more on a regular cycle. Subscribers will receive two enhancements per year as part of their subscription, with the option to purchase additional modules on an annual basis. Future databases, like *Daily Life America* (forthcoming in Fall 2007), can be fully integrated into *Daily Life Online* or purchased as stand alone subscriptions. In addition, subscribers receive the quarterly *Daily Life Online* e-newsletter, which provides details of new and forthcoming content, tips, news, and suggestions.

### Content features include:

- Greenwood titles ([Complete titles listing](#))
- Primary documents, images, maps, vetted weblinks, Tours through Time features, Spanning the Globe features, and thousands of folk and fairy tales

**What do you want to know?** *Daily Life Online* offers a wealth of possibilities for research and learning across fully complementary content:

- Compare the role of women in the medieval Islamic world with their status in contemporary Iraq
- Put Shakespeare and his plays in their context in Elizabethan England, or explore the magic realism of Gabriel Garcia Marquez
- Discover how theater evolved from religious rites, and what plays are performed in modern day China
- Compare modern day dictatorships with their historic counterparts
- Examine the structure and symbolism of architecture, from ancient Greek temples to glass-and-steel malls
- Explore changing attitudes towards sex, sexuality, and gender, from the ancient Egyptians to contemporary Indonesia
- Understand the folklore and traditions of other countries and your own

**A Note About the Content** - Daily Life Online reflects the voice of the people. Vernacular speech is rough and obscenity-laden at times, and may be inappropriate for children. Daily Life Online has chosen to take a scholarly approach and not censor the authentic materials it gathers; and parents and educators might consider reviewing specific content before sharing it with young people.
