

# EBSCO Publishing Databases Available through Digital Knowledge Central

EBSCO Publishing is pleased to offer Digital Knowledge Central members three package options that will add valuable reference and research material to any classroom curriculum.

## Extended Collection Package

### ■ **Literary Reference Center™**

This valuable literary database provides users with a broad spectrum of information on thousands of authors and their works across literary disciplines and timeframes. This comprehensive collection contains full text for 27,500 plot summaries, synopses and work overviews; nearly 100,000 articles/essays of literary criticism; nearly 140,000 author biographies; more than 420 literary journals; more than 593,000 book reviews; more than 60,000 classic and contemporary poems; more than 15,000 classic and contemporary short stories; more than 5,100 author interviews; more than 7,100 classic texts and much more.

### ■ **History Reference Center®**

This is the world's most comprehensive full-text history reference database, featuring full text for more than 2,400 reference books, encyclopedias and nonfiction books from leading history publishers. The database also includes full text for more than 135 leading history periodicals, and contains more than 61,100 historical documents; more than 57,000 biographies of historical figures; more than 110,200 historical photos and maps; and more than 80 hours of historical video.

### ■ **Science Reference Center™**

This comprehensive research database provides easy access to a multitude of full-text science-oriented content. Designed to meet every student's science research needs, *Science Reference Center* contains full text for hundreds of science encyclopedias, reference books, periodicals and other sources. Topics covered include: biology, chemistry, earth & space science, environmental science, health & medicine, history of science, life science, physics, science & society, science as inquiry, scientists, technology and wildlife.

### ■ **Book Collection: Nonfiction™**

As a cross-curricular resource, this rich research database for school libraries provides content representing a wide spectrum of works, including popular series from top book publishers. It contains informative abstracts and searchable full text for more than 4,000 popular nonfiction books. The database also includes full-text entries on core subject areas, as well as information on careers, health, sports, adventure, technology, life skills and more.

Topics covered include: biology, chemistry, earth & space science, environmental science, health & medicine, history of science, life science, physics, science & society, science as inquiry, scientists, technology and wildlife.

## Additional Databases

### ■ **Novelist® Plus**

With access to information on more than 200,000 fiction and nonfiction titles, *Novelist Plus* is a readers' advisory service offering a wide range of feature content that appeals to readers of all ages and reading levels. This database includes lists of award-winning books, author read-alikes, book discussion guides, reading lists and more.

### ■ **Novelist® K-8 Plus**

*Novelist K-8 Plus* is a great online resource for helping kids find their next fiction or nonfiction read. Providing access to information on over 60,000 fiction titles and 17,000 nonfiction titles aimed at the K-8 population, this database is created specifically for kids (and the adults who work with them), and has a colorful, graphic-rich interface that makes searching for the next great read a fun and easy activity at any age.
