ENCYCLOPÆDIA

Britannica Online *School Edition*

The Most Comprehensive Curriculum Resource for Grades PK-12

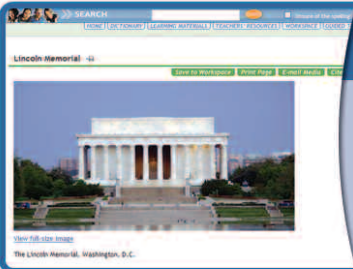

Britannica Online School Edition makes it easy to customize, share, blog, and differentiate instruction. Web 2.0 features include customizable storage areas, an award-winning interactive blog, publishing features, customizable early childhood resources, and widgets. Use these resources at school or at home!

Blog & Share

High School Level: www.school.eb.com/eb

- Use the **Share this Article** and **Widget** features to publish selected articles and interactive topic widgets to your blog or Web site.
- Interact with the **Britannica Blog**, an award-winning moderated forum and blog. Ask students to critique blog entries or compare opposing views.

Store & Organize

All levels: www.school.eb.com

- Use the **Workspace** tool to store and organize your favorite pictures, Web sites, and articles so that you can access them anywhere, anytime.
- **Share** your Workspace with others through links or by giving out the username. Do not share your password unless you want others to make changes.

Interact with the Internet

All levels: www.school.eb.com

- Find Web sites you know you can count on by clicking **Web's Best Sites** on the right side of Britannica search results and encyclopedia articles.
- Learn how to tell good sites from bad sites using the **Evaluating Content on the Internet** checklist (see Learning Materials > Language Arts > Literary Genres).
- Study History, Science, and other subjects online with Britannica's **Web Site Activity** booklets (see Web Site Activities under Learning Materials in the Science, Social Studies, and Language Arts subjects).

Use Early-Childhood Tools

www.school.eb.com/learningzone

- Encourage parents to reinforce classroom skills at home by customizing the **Britannica Learning Zone** for PreK-2nd grade students. Differentiate instruction using the Teacher Tools to select the best resources for your students.
