eLibrary® Curriculum Edition—the ultimate easy-to-use curriculum and reference resource—delivers one of the largest collections of periodical and digital media content designed specifically for K-12 schools and libraries

Built with your students in mind

eLibrary Curriculum Edition is a comprehensive reference database that meets a wide range of research and curricular demands. Students find the answers they need from more than 2,500 full-text magazines, newspapers, reference books, and transcripts—plus thousands of pictures, maps, weblinks, and audio/video files.

Additional content sources help to create a powerful curriculum support tool for English Language Arts, Social Studies, and more.

ProQuest® Learning: Literature offers a comprehensive, integrated literary resource for original full-text works, author biographies, contemporary criticism, and more.

History Study Center™ provides thousands of historical primary and secondary sources covering ancient to modern US and world history. Each resource can be

searched together with eLibrary general reference content, or searched individually.

Using natural language or Boolean search, students can type a question, phrase, or keyword. Students can also search or browse by topic, reference desk, or publication. They can sort their results by relevance, date, file size, Lexile/reading level, publication, or source. And they can create marked lists, or view, print, or email any document in one easy step.

Other features in eLibrary® help save time and make research even easier.

- **State and national standards search** locates standards-aligned resources, which cuts lesson-planning time and ensures that library resources correlate directly to learning benchmarks.

- **Topic search** locates resources indexed to more than 18,000 topics relevant to K-12 curricula and interests. Common topic results, find more documents like this, and search within a topic features quickly guide users to the more relevant resources.

- **Reference search** gives students the basic subject information they need to start the research process.

- **BookCarts and QuizCarts** allow educators to create student activities, study units, test, and more. Plus, more than 600 pre-built BookCarts help educators immediately integrate eLibrary into the classroom.

- **Multimedia search** targets and finds maps, pictures, audio, websites, and video—more than 3 million files in total—that support 21st century coursework in any subject.

"eLibrary Curriculum Edition reflects our curriculum needs and supports state and national standards, particularly information literacy standards as students have access to so many different formats."—Lindsay Bozzani, Library Media Specialist, La Cañada High School

With eLibrary Curriculum Edition, your students can:

- **Access** more than 2,500 full-text magazines, newspapers, transcripts, and reference books
- **Examine** a variety of media types including streaming audio and video, weblinks, maps, and pictures—enriching projects and research
- **Use** standards-aligned content correlated to students' learning benchmarks
- **Find** full-text and multimedia information relevant to study and research in English Language Arts and Social Studies
- **Save** time by searching across seven different media types and multiple databases in one query
- **Select** from multiple search strategies that benefit all levels of research skills and need
- **Navigate** an easy-to-use interface that engages and motivates learners
- **Create** relevant, appropriate instructional material quickly using BookCarts and QuizCarts
- **Use** "to the best part" to find the most relevant portion of an article

About K-12 Resources

Since 1938, ProQuest has served as a global leader in collecting, organizing, and distributing value-added information to researchers, educators, and students in libraries, government, universities, and schools in more than 160 countries.

Our eLibrary®, ProQuest®, and SIRS® educational resources unite high-quality content, standards-based curriculum, and online technologies—helping schools deliver on the promise of technology to develop educators' skills and improve student achievement across the curricula.

Inside eLibrary Curriculum Edition

eLibrary Curriculum Edition provides schools with powerful, compelling resources for extending and reinforcing student learning and achievement at all levels. State and national standards search allows educators to quickly locate and use content aligned to core curricula subjects, as well as technology and health standards. By using the database, educators can integrate technology effectively into the curriculum. These attributes and others meet NCLB requirements for purchase using funds such as Title II-D and IV-B.
